Hiring Manager

Subject: Application for Entry-Level Data Analyst / Software Role

Dear Hiring Manager,

I am writing to express my interest in an entry-level Data Analyst or Software role at your organization. I am currently pursuing a Bachelor of Computer Applications at KLE's BCA PC Jabin Science College, Hubballi, and I am eager to apply my analytical and technical skills in a professional environment.

I have gained practical experience as an SDE Intern at SecureDApp, where I worked on browser automation, software testing, and security validation. I have also developed an LLM-powered financial chatbot using modern web technologies. Additionally, I completed industry simulations with Deloitte and Tata focusing on data analysis, dashboards, and business insights.

With skills in Python, SQL, Excel, and Power BI, along with strong problemsolving and analytical abilities, I am excited about the opportunity to contribute to your team while continuing to learn and grow.

Thank you for your time and consideration.

Sincerely,

Vaishnavi V Kenchangoudar
